

Awaken learners in your classroom

Want to inspire your students and reach their hearts? Then the Awaken the Learner Workshop and book is the perfect pair for you.

Signature PD Service **[Awaken the Learner Workshop](#)**

The Awaken the Learner Workshop is the result of a unique collaboration between Darrell Scott, the father of Rachel Scott, who was killed in the 1999 shooting at Columbine High School, and Dr. Robert J. Marzano. During this on-site training, you will:

- Discover ways to create a classroom culture that awakens students to new possibilities.
- Explore a model of behavior, decision making, and engagement that illuminates student motivation.

- Reflect on your own teaching practices and the extent to which they instill purpose and inspiration in students.
